Carver Alumni Scholarship Application
Atlanta Chapter of the Carver Alumni Association (ACCAA) 2024
Type or Print neatly using ink.

First Name: Janiyah Last Name: Murray Date of Birth: 07/17/2004

Home Address: 131 Sunlit Grove Dr City/State/Zip: Harvest / Alabama / 35749

Home Phone w/area code (256)-425-1354 Parent's work phone 706-587-1444

Name of Parent/Guardian: Kimberly McGhee Parent e-mail kmcghee85@yahoo.com

Alternate Family Member Name & Phone: Dorothy McGhee / 706-593-8930

Your e-mail: janiyah2004@yahoo.com Counselor: N/A

High School: Sparkman High School Class of: 2022 Cumulative GPA: 4.0

Name of Carver ancestor: Dorothy McGhee

What college/university are you currently attending? Tuskegee University

Field of Study (Major): Biology (pre-medicine)

Why did you choose this field of study? I choose this field of study because of my love for medicine. During my high school years I was given the opportunity to be apart of my school's medical program and was able to learn and see different field of medicine. I have always wanted to help and give back to people and once I started to learn more about medicine I knew that this way my way of accomplishing that goal.

I verify that the information on this application is true and correct:

Student's signature: Janiyah Murray Date: 3/31/24

- Application **must be received by Monday, April 15, 2024.**

Mail completed application to:

ACCAA, Inc.
P.O. Box 361914
Decatur, Ga. 30036
Phone: (770) 987-8663

*This form is for **current college students** who are descendants of Carver Alumni (Hamilton, GA), currently enrolled in college or university, have a 3.0 cumulative GPA and who meet other eligibility requirements.

Janiyah Murray

Most meaningful achievements

One of my most meaningful achievements is during my junior year of high school and getting accepted into the internship program. Through my high school years we had to take a medical class to prepare us to apply for the internship our senior year. Going into my junior year CVOID hit. Watching so many people getting sick made me have even more respect for all medical staff across the world. So many people risking their lives to save others inspired me so much. To see other people just graduating medical school and jumping into their career during a time like that made me believe that I could do it. When you tell people that you want to go into medicine the first thing people say is it's a lot of school but what they don't realize is that without doctors this world would be so different. When CVOID hit in high school it was so hard for me because I was always prone to getting sick really easily during the season changes and my mother was very worried for me so she made me stay home for school. I felt so defeated because I knew that I needed to maintain a 90 in my medical class to be able to apply for internship senior year. Junior year was the year to perform your skills, test your knowledge and abilities. Learning medicine/skills virtually was hard but I was able to accomplish every test/skill check off/ and my interview. While CVOID was happening my aunt was diagnosed with breast cancer. When I first found out it was one of the scariest things because of how close my auntie and I were. It was very scary for my family because of my grandfather's passing of stomach cancer but with chemotherapy and radiation my auntie is now breast cancer free. I did so much research and learned to help in any way that I could. This relates to my career because my plans after undergrad is to attend Meharry Medical College and start my residency there. Later in life to become a Pediatrician and open up my own practice one day.
